# Degrees of Excellence

What will YOUR college degree look like?

In today's world, almost all students will need education beyond high school to be ready for their jobs. But college looks very different these days.

Only 25 percent of students are "traditional" students. Traditional students go to college full time. They live on campus.

**MAJOR:** the subject you study in college

The subject you study in college is called your **major**. An example major is **health information technology**. These people work with computers for hospitals. You do not have to be a doctor to help sick people. Another example is **education**. Education majors become teachers.

A **workforce certificate** usually takes about one year. It will teach you more about your job. You will be able to do it better and earn more money. For example, you can earn a certificate in **hotel management**. Some hotels will let you learn more about customer service and earn a certificate.

**WORKFORCE CERTIFICATE:** one-year training for your job

**ASSOCIATE DEGREE:** two-year college degree

A two-year college degree is called an **associate degree**. Many jobs require an associate degree. Some examples are **chef**, **radiology technician** (who takes x-rays) or **paralegal** (who helps lawyers).

An **apprenticeship** helps you learn on the job. You will work and take classes. Apprenticeships usually take between two and five years. Most jobs are hands-on. Some examples are **electrician** and **hair stylist**.

**APPRENTICESHIP:** on-the-job training

**BACHELOR'S DEGREE:** four-year college degree

A **bachelor's degree** takes four years. This degree is what most people think of when they hear "college." You will have the most job **options** if you earn this degree. You might live on campus or at home.

After a bachelor's degree, you can earn a **master's** or **doctorate degree**. These degrees take up to eight years. You will learn much, much more about your major. Some example jobs are **professor** or **medical doctor**.

**DOCTORATE DEGREE:** highest college degree – up to eight years

**No matter where you go in life, college is in your future!**

# Do You Remember?

Read the article on page 4 and answer the questions below.

# What's Your (Learning) Style?

We all have style—a learning style, that is. **Everyone learns differently.** It's important to know about your learning style. Then you can do your best in school. Most people are a mix of these types:

## **Auditory:**

Auditory learners learn best by hearing. **Do you understand a concept better when someone explains it to you? Do you remember a news story better if you hear it on the radio than if you read it in a newspaper?** Then try these tips:

- Ask if you can sit in front. Focus on hearing your teacher.
- Take notes to jog your memory.
- Ask a parent or sibling to listen to you explain the ideas from school.

## **Visual:**

Visual learners learn best by seeing. **Do you understand better if there is a diagram or picture? Do you learn well from books?** Maybe you have a photographic memory. Then try these tips:

- Make flash cards before tests.
- Copy diagrams or pictures. Just don't doodle too much!
- Read your textbooks.

## **Kinesthetic:**

Kinesthetic learners learn best when they're moving—building something, for example. **Do you enjoy science experiments? Do you make models to help you understand something?** Here are some ideas for kinesthetic learners:

- Squeeze a stress ball when you are reading or listening.
- Write down ideas that go together. Cut them out. Then play a matching game.

When she is a school counselor, **Zitlally** will need to know her students' learning styles so she can help them excel in school. She is in fourth grade at Sycamore Elementary in Avon, Ind.

To take a quiz to see which type of learner you are, visit [LearnMoreIndiana.org/learningstyle](http://LearnMoreIndiana.org/learningstyle).

## Every student needs help sometimes.

Maybe your school work just doesn't make sense. Or maybe something outside of school makes it hard to listen. It's always OK to ask for help. Here are some people you can talk to:

**Your teacher.** Your teachers want you to succeed. Ask your teacher if he or she will help you learn something a different way.

**Parents.** They can solve a problem like bullying or complicated math.

**Your school counselor.** If your school has a counselor, it's his or her job to make sure you feel safe and successful at school.

# More Career Options Than You Think

## Military

The military might not be your first career choice. But did you know that there are hundreds of jobs in the military? The military has five branches: Air Force, Army, Coast Guard, Marines and Navy. They employ artists, computer programmers, cooks, dentists, doctors, nurses, engineers and many other jobs.

### Cartography: the making of maps

Kyle is a senior in high school in Tell City, Ind.

He enlisted in the Navy. He will assist with **cartography** and missile control on a big ship.

Kyle got high scores on tests in high school, so the Navy let him choose his job. Even better, he can go to college for free! Kyle might also choose to continue working with the Navy. Then he can apply for different jobs in the military.

## Health Sciences

Like many students, Jaxon dreams of being a doctor. He wants to be a surgeon. Maybe you want to help people feel better, too. Some careers you might like are:

**Surgeon:** a doctor who performs operations

**Nurses** assist doctors but don't do operations or exams. You might go to college for one, two, four or more years. **Registered nurses** can earn a two-year or a four-year degree.

**Health Information Technicians** go to college for two years.

They work with patients in the front office. They keep track of medical records, schedule patients, answer the phone and manage the doctor's schedule.

**Pharmacists** dispense pills and medicines. They go to college for about six years and work at a hospital or a drugstore. Their assistants are called **pharmacy technicians**. Pharmacy technician certificates take about one year.

Jaxon is in fourth grade at William Tell Elementary in Tell City, Ind.

# Paying \$\$\$ it

You've probably heard of "**paying it forward**." That's doing something nice for someone after something nice happened to you. You can also "**pay it forward**" with your education. You can start paying for college today. Here's how Indiana college students pay for school.

**Tuition** is the price you pay to attend college.

Average college tuition each year

Amount student must pay  
(from savings, from family or from working a job)

Average amount student receives in financial aid

\*Note: This is for students at public, four-year colleges in Indiana.  
Your college tuition might be different.

## What is Financial Aid?

Look at the graph above. About half of tuition is usually paid by financial aid. Financial aid is money you get for college. It could be from the government, your college or somewhere else. It comes in two kinds:

- **Loans:** Loans have to be paid back after college—plus interest. It's not smart to take out a lot of loans. You will have to pay back much more than you borrowed.
- **Grants and scholarships:** This kind of financial aid is free! You will never have to pay it back. You can get this free money by earning good grades. You might also get it if you are the first in your family to go to college, if you are a minority, or if you are going into specific jobs. Indiana provides students with over \$200 million for college each year. Indiana has free college money for some students who want to be teachers. Indiana has a grant for students who finish high school early. There are other grants, too.

## Do YOU Remember?

**1. What is the price you pay to attend college?**

- a. Tuition
- b. Salary
- c. Financial aid

**2. Which type of financial aid do you have to pay back?**

- a. Loans
- b. Grants
- c. Scholarships

**3. How can you "pay it forward" and start paying for college today?**

- a. Getting good grades
- b. Saving money
- c. All of the above

# HEY, PARENTS!

## College Saving Is as Easy as 529

The **Indiana CollegeChoice 529 Savings Plan** is an easy way to invest in your child's education tax-free. The **529 Plan** offers these great features:

**Easy set-up.** It only takes a \$25 deposit to get started, and anyone—friends, grandparents, relatives—can contribute. Learn more at [LearnMoreIndiana.org/529](http://LearnMoreIndiana.org/529).

**Tax benefits.** Withdrawals for education (tuition, books and other educational college expenses) are tax-free. Plus, anyone who contributes to your child's savings plan will qualify for an Indiana state tax credit up to \$1,000.

**Automatic deposits.** If you want to make a regular commitment to your child's future, you can set up an automatic deposit from your paycheck. Saving couldn't be easier!

**Shop 'n save.** Sign up for Upromise at [Upromise.com](http://Upromise.com), and a portion of your family's everyday spending on household items and restaurants will be deposited in your **529 Savings Plan**.

**Simple transfers.** What if you save more than your child needs? The account's beneficiary is easily changed to a sibling or relative.

Don't forget to involve your child in saving. Help your child deposit half of his or her birthday money in a **529 Plan**, or get a piggy bank as a visual reminder of a college savings account.
